Hiring Manager KPMG

Subject: Application for the Anti-Money Laundering (AML) Investigator Position

Dear Hiring Manager,

I am excited to apply for the Anti-Money Laundering (AML) Investigator role at KPMG. With over a decade of experience in AML investigations and compliance, I possess the technical expertise, analytical acumen, and attention to detail required to thrive in this position.

In my previous roles as an AML Investigations Analyst with leading firms such as KPMG and PwC, I conducted thorough transactional data analyses to identify suspicious activity and money laundering patterns. My investigations have involved pulling transactional records, performing internal and external customer research, and drafting comprehensive SAR narratives that meet stringent regulatory standards. These efforts contributed directly to reducing organizational risk and maintaining compliance with federal regulations.

Notably, my extensive experience in U.S. banking environments aligns with KPMG's requirements for this role. I have successfully managed caseloads to meet daily and weekly production targets, delivering accurate findings while maintaining high-quality standards. My expertise extends to broker/dealer-specific investigations, enhancing my ability to handle diverse workstreams effectively.

Beyond my technical skills, I bring a proactive approach and a strong commitment to collaboration. By working closely with team leads and leveraging my communication skills, I have consistently reported production updates and contributed to process improvements.

KPMG's reputation for excellence and innovation in financial crime prevention deeply resonates with me. I am confident that my background and passion for upholding the integrity of financial institutions make me a strong fit for your team.

I would welcome the opportunity to discuss how my skills and experience align with the needs of this role. Thank you for considering my application, and I look forward to the possibility of contributing to your continued success.

Sincerely,

FRANCISCO J. PERALTA
